Interview Content:

Following each question is an answer in quotations that was collected during a pre-interview email exchange with our guest. Answers given on this podcast episode may vary or be completely different. Either way, we hope you enjoy.

First: What is the difference between these two websites (climaxconnection.com and eroticalkphonesex.com) and what are the different needs that each website is fulfilling to your customers?

"A man in a chat room like climaxconnection.com, is in most cases not seeking a specialized fetish experience. They are looking for someone to mutually masturbate with and have no interest in a fake, one sided encounter."

"A man calling eroticalkphonesex.com for small penis humiliation, racial humiliation, cock and ball torture, or any other number of fetishes ranging from robots to quicksand have very specialized fantasies they need to talk about and work through that are of only an interest to them... Many men calling are seeking fetishes and have no interest in hearing a woman orgasm"

"They are totally different types of experiences."

Second: How much money can a person make doing this?

"This varies widely, most girls make under 20K a yr doing this. Other vary ambitious ones, the very best of the best independent girls, can do 6 figures a yr. The majority though, I'd say well over half will barely be able to get by."

Third: Favorite part of the job?

"The freedom to work from home, set my own hours, not have to get dressed or made up. It's a hermit's dream job."

Fourth: Worse part of the job?

"It can be quite monotonous, and many girls find the job isolating since you spend all your time alone..."

Fifth: Hours of the Job? – And, Do you ever set your schedule to accommodate a customer with a peculiar fetish, for example you may wait to take showers or you might cut your toenails at certain times?

"This varies from girl to girl... Some companies require set schedules, I'd never be at a place like that... Some vets like myself that take this job seriously are full time, as in logged on 24/7. That sounds a lot more grueling than it is, you can be logged into many places at once and it can still be hours between calls."

Sixth: Busiest time of the year?

"This also varies from girl to girl. Calls overall are down across the board due to an over saturation of girls trying this out... Some find summer the slowest since kids are out of school and dads have less free time to play."

Seventh: Best creepy customer story?

"The one that comes to mind here was not long after I started 6 yrs ago. A man called and said he regularly got hookers, not an uncommon thing to hear. He however didn't get them to have sex with them, he got them to examine gynocologically with a bag of medical tools he had acquired. I was horrified, it seemed so weird and disturbing. He'd rent 3-4 hookers and go to a hotel room and examine them all like he was a doctor, it was very bizarre."

Eighth: Most bizarre story?

"One recently had me draw a swastika on myself in red lipstick and send him the pics, as he has odd Nazi/Jewess whore fantasies...lol, I was afraid the water delivery guy would show up before I got it wiped off. Imagine how that would be!"

Ninth: Can you speak about the negative impact that some of your customers say their mothers have had on them and why?

"I know many clients into spanking it, often has the root cause of mom catching them jerking off as kids and she punished them. It's terrible what these women do scarring these boys for life by acting that way, and I hear it a lot."
